

## Plan your SAP Divestiture in hours via Graphmantix Divestiture Map™

M&A and Divestitures are a strategic part of many industries. Even with playbooks, mergers and divestitures are expensive and risky due to lack of detailed planning data and impact analysis tools.

### Graphmantix

- Automatically discovers your SAP® in as little as 2 weeks
- Turns your Playbook into a Data-Driven Product
- Performs Impact Analysis based on customizable Scope
- Creates a Data-Driven Blueprint based on Operational Data

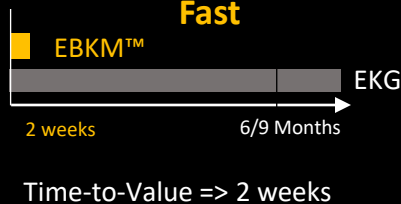

Graphmantix Divestiture Map™ is a SaaS-based SAP® ERP discovery system leveraging AI, business semantics and Neo4j™ graph database to create a data fabric map of your enterprise.

### Automated Discovery

1200+ Objects.  
Custom Enhancements.

### Fast

### Impact Analysis

Perform multi-dimensional impact analysis based on configurable Scope.

### Playbooks

Leverage and expand your Playbook.  
Convert to a Data-Driven Product.

### Blueprint & Scope

Create a Data-Driven Blueprint for Project Execution based on configurable Scope.

### Reduce Costs/Risks

Reduce risk via up-front operational data impact analysis. Reduce costs via inhouse prebuilt analytics.

If you're running SAP ERP today, Graphmantix can transform how you see and run your business in as little as 2 weeks. Ask us about our pilot program at [info@graphmantix.com](mailto:info@graphmantix.com)
